WHY ASSOCIATE?

BUT...

"I'm alone; I don't belong to an organization that represents me".

We just need one voice, not an organization.

"It's an economic effort".

Certainly, it's necessary to evaluate how well this effort connects our daily experiences with the decision-makers shaping our work.

Let's talk!

Together we will find the way.

VET ADDS VALUE

Vocational Education and Training is a strategic area to drive the economic and social development of the EU.
